

**WomenInCS@TUM**

in cooperation with **Women's  
representative in Math** present

# A career journey with Apple: A Panel Discussion

**29 November 2021, 5-6.30 p.m.**

Learn more about the different types of careers within research and development in tech companies like Apple. In this event, we focus on supporting our students to get further insights on the application and the interviewing process, through the lenses of five female Apple engineers with Math and CS backgrounds.

This will be an online event. Please register to attend:
